Additional resources: Natural language processing (NLP)

This reference document is designed to complement and enhance the material we have covered on NLP.

References:

1. The official Natural Language Toolkit documentation:

   - NLTK

2. An NLP tutorial series using the NLTK module in Python:

   - Tokenizing words and sentences with NLTK

3. A guide on NLP in Python covering parsing, text processing, and feature engineering:

   - Ultimate guide to understand and implement natural language processing (with Python code)

4. A tutorial on lemmatizing with NLTK:

   - Lemmatization

5. A chapter on everything you need to know about text classification with NLTK:

   - Learning to classify text

6. A tutorial that will help you get started with Word2Vec for NLP:

   - Bag of words meets bags of popcorn: Use Google's Word2Vec for movie reviews

7. NLP tutorial in Python (with examples):

   - Complete natural language processing (NLP) tutorial in Python! (with examples)
